# INTRODUCTION

As if it was yesterday we remember the time when (after cooperating with the Studfarm Zangersheide since 1977) we moved to Canada, where Okanagan Show Jumping Stables Ltd. as representative of the Studbook Zangersheide opened it's doors in 1993.

Since then we have worked with all our capacities on introducing and establishing the Zangersheide concept of planned selective breeding for highest performance. Over the years we convinced even the skeptics, and our breeders group (Okanagan Supreme Performance Horse Group) is a steadily growing and enthusiastic community of serious ambitious breeders representing this system in the horse industry all over Canada and in the USA.

With the strict selection process over so many years, our horses have reached a quality level, which is hard to find elsewhere in the world in this concentration. As all these horses grow up in herds outside in the most beautiful environment (especially four perfect seasons) since the day of birth, the end result is an extremely healthy and athletic type of horse with a totally balanced mind and character. Besides that, all handling and training from the first day on till the hammer falls at this auction, is done without exception by our qualified family team, so that the horse you buy has an endless confidence in it's two legged partners.

We would consider these selected super prospects for ourselves at any time as unquestionable and definite "keepers". The only reason for this sale is the fact that since the last years developing major focus on the International Grand Prix Circuit, which occupies a big part of our man power all year round, is not leaving enough time to start the show career of all those top horses at the same time. So very sadly on the one hand, but on the other hand very proud as the breeders, we present the following selection of high caliber horses.

While all these horses have super sport horse potential, the stallions offer in addition to that the possibility of a breeding career, while all the mares have the genetic background to become a foundation broodmare of a buyer's breeding program.

**Cordially welcome to Okanagan Show Jumping Stables!**

**LIGHTNING Z** is a very typeful prospect with a lovely disposition. While he offers convincing gaits and especially a beautiful balanced canter, he could become a dressage horse any time. But still his real value is in his jumping potential, which is not astonishing when you look at his fascinating pedigree.

Sire **LOUIS** is an extremely impressive representative of the in performance reknown Holsteiner Stamm 776. His bloodline connection Lord/Ramiro Z is famous for noble performance horses and highest scope. Especially Louis' dam Galina is known as the dam of of several approved stallions.

Dam **LEONIDA Z** is a really sensational broodmare. While her sire Leroy is bringing the famous combination Landgraf/Ronald into the mix (Libero H, Jos Lansink), her dam Rascal Z is putting the genetics of Lightning Z on the foundation of one of the most famous families worldwide: Rascal Z's dam Ascot Z is a daughter of Girl Z (known in breeding as Gotin), which shone for many years at the highest level of show jumping sport under Bernd Kuvertz. Ascot Z produced several approved stallions, for example with Ramiro Z Rascal Z's beautiful full brother Ramalgo Z. Ascot Z's full sister Alpha Z is the dam of the world famous sport and breeding sires Robin Z I and II.

# LORIOT Z

STALLION, JUNE 15, 2004

	LE GRAND I	LORD	LADYKILLER XX VIOLA
LE SAUVAGE		OREGON	RONALD BADUA
	ELLA	COLT	CROMWELL ULANA
		DORETTE	MONARCH SCHELLE
	ACCORD II	AHORN Z	ALME Z HEUREKA Z
ALPINE Z		RIBECKA	CALYPSO I GERLIS
	APRIL LOVE Z	ALME Z	IBRAHIM GIRONDINE
		RINNETOU Z	RAMIRO Z WENCKE Z

**LORIOT Z** is an extremely balanced, compact powerhouse with all the potential for the ambitious competitor. His friendly character makes him a real treat to work with. He still is in full growing and developing. As his beautiful canter indicates, his jumping talent is ingenious and proving, that usually such outstanding breeding is corresponding with an outstanding horse.

Sire **LE SAUVAGE** is an athletic power machine with enormous rideability and working ambition. His jumping capacity, technique and style are simply spectacular and show up in almost all of his offspring. *Le Sauvage* is the product of the connection of the famous Holsteiner lineage 730 B (*Le Grand I*) and 18 B I (*Ella*).

While *Le Sauvage* could not pursue his own show career because of his injury in his early years, his offspring shines in show rings all over North America.

Dam **ALPINE Z** is another example of a world leading mare line. While her sire *Accord II* with all his internationally successful offspring does not need any explanation, it should be understood, that her dam *April Love Z* (by *Alme Z*) is representing as a direct daughter of *Rinnetou Z* (Piet Raijmakers) one of the most famous Zangersheide families ever (direct descendant of *Fairness Z*/Hartwig Steenken).

**LAMANDO Z** is an eyecatcher with just incredible appearance. While he moves in every situation like a rubberball, his athletic abilities are unlimited. Besides that he offers a very awake and playful personality, which is wonderful to work with. Sire **LE SAUVAGE** is an athletic power machine with enormous rideability and working ambition. His jumping capacity, technique and style are simply spectacular and show up in almost all of his offspring. Le Sauvage is the product of the connection of the famous Holsteiner lineage 730 B (Le Grand I) and 18 B 1 (Ella). While Le Sauvage could not pursue his own show career because of his injury in his early years, his offspring shines in show rings everywhere. Especially to mention is a whole string of approved sons, for example Lamborghini Z (on the international Grand Prix circuit with Eberhard Bahle), Luxury Z (having himself already approved sons), Liamos Z (known for successfully competing at the West Coast Circuit) and Liviano Z, who started his show career last year. Dam **CAMANDA Z**, a daughter of the Olympic jumper Carthago Z (Jos Lansink) is a direct descendant of Okanagan Show Jumping Stables' famous foundation mare Romanze Z (Ramiro Z/Heureka Z). With this unbeatable background in combination with some extra quality Thoroughbred blood, Camanda Z is a top of the line broodmare, what she proves as well with her son Quincy Z (catalogue no.14).

**LIVIANO Z** got approved in 2004, but at the moment is only working on his show career. He was at his first shows in 2007 and promises everything for becoming an international top horse. While his temperament and character are unbeatable, he shines in every situation through his enormous braveness and ambition. Genetically he is a rare jewel, as he is pure bred on the Holsteiner Stamm 18 B 1 through his sire and his dam. A super horse, which we recommend for highest ambitions!

Sire **LE SAUVAGE** is an athletic power machine with enormous rideability and working ambition. His jumping capacity, technique and style are simply spectacular and show up in almost all of his offspring. Le Sauvage is the product of the connection of the famous Holsteiner lineage 730 B (Le Grand I) and 18 B 1 (Ella). While Le Sauvage could not persue his own show career because of his injury in his early years, his offspring shines in show rings everywhere. Especially to mention is a whole string of approved sons, for example Lamborghini Z (on the international Grand Prix circuit with Eberhard Bahle), Luxury Z (having himself already approved sons), Liamos Z (known for successfully competing at the West Coast Circuit) and Liviano Z.

Dam **ACADIA Z** is invaluable. Her sire Alexis Z, one of the most famous Alme Z sons ever, did not only gain his international reputation through his own showcareer, but also through his sucessful offspring like Amaretto I and II and Apricot. Acadia Z's dam Livia is one of the most intruiging mares in breeding. Livia's sire Langraf I does not need any explanation. Livia's dam Esplanade is the combination of the most respected jumper blood of Colt with Adrette (dam of the famous stallion Ronald). Adrette is a daughter of Dorette, the dam of Roman and Farn (Nimmerdor). So Acadia Z is the pefect representative of the Holsteiner lineage 18 B 1

			SCHWARZSEHER
			MARLIS

**LUTARIS Z** is a most impressive power machine, which demonstrates every second his enormous athletic capacities. While this super strong horse displays unlimited scope and international top style over fences, he surprises on the other hand with a very friendly and absolutely uncomplicated mentality. From the whole auction lot he is one of the easiest to work with, so he will be a perfect addition to every highest level show barn.

Sire **LE SAUVAGE** is an athletic power machine with enormous rideability and working ambition. His jumping capacity, technique and style are simply spectacular and show up in almost all of his offspring. Le Sauvage is the product of the connection of the famous Holsteiner lineage 730 B (Le Grand I) and 18 B 1 (Ella). While Le Sauvage could not pursue his own show career because of his injury in his early years, his offspring shines in show rings everywhere. Especially to mention is a whole string of approved sons, for example Lamborghini Z (on the international Grand Prix circuit with Eberhard Bahle), Luxury Z (having himself already approved sons), Liamos Z (known for successfully competing at the West Coast Circuit) and Liviano Z, who started his show career last year.

Dam **PAULETTA** was herself a very successful jumper in Europe (Meyer zu Bexten), before she started her breeding career in Canada. Her sire is the progenitor Pilot, who himself earned an enormous life winning sum and was in the top list of world leading sires for many years. He left a high number of world class jumpers like P.S. Priamos (Ludger Beerbaum), Pirol IV (Leslie McNaught), Pedro (Wolfgang Brinkmann), Phantom (Rainer Rohmann) and Pamina, just to name a few.

Pauletta's dam Ribana is based over Roderich on the countless proven Ramzes line (Ramiro Z, Ronald), what makes Pauletta a real treasure.
